

Adding Your Own Community Hours

Step 1: Log-in to on-line portal If you have already set up your account from noreply@seattle.gov you can go directly to: <https://web7.seattle.gov/DON/PPatch/Account/Login> and log-in with the user name and password you set up.

**If you have NOT set up through noreply@seattle.gov and wish to use the system you need to reach out to your staff member to have them send you the automated email to set up your account. DO NOT register on the above website you will just set up an account that is not linked to the plot you are assigned.

Step 2: Click on 'gardener dashboard' in the upper right-hand corner.

Step 3: Look for "community hours" section and click on "Edit/Add community hours" or "View/Add" both take you to the same place.

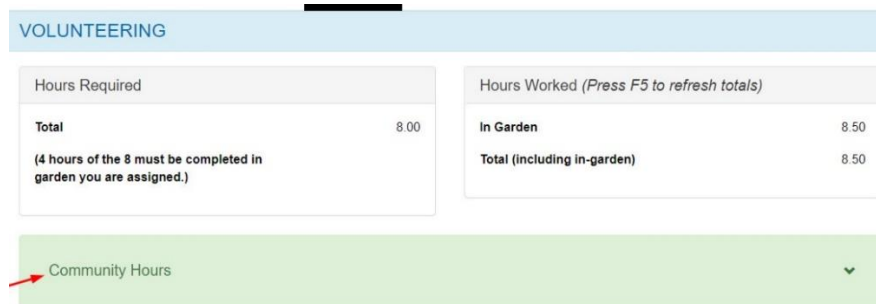

Community Hours View/Add

Hours this year:	8.50
In-garden hours this year:	8.50
Hours remaining this year:	0.00

[Edit/Add Community Hours](#)

Step 4: Click on "community hours" under volunteering window that pops up when you click on add. * **Note please round up your hours to the nearest 30 minutes and do not enter smaller amounts.**

VOLUNTEERING

Hours Required	Hours Worked (Press F5 to refresh totals)
Total 8.00	In Garden 8.50
(4 hours of the 8 must be completed in garden you are assigned.)	Total (including in-garden) 8.50

Community Hours

Step 5: Click on "Add Hours" button and enter date, task performed in drop down menu and add your hours worked. **Round hours to 30-minute intervals**, if you do less please combine to make it to a 1/2 or full hour. **Please note you cannot leave any field blank when entering if you enter just hours you need to put a 0 in the minutes and you will need to enter a 0 in the hours section if you are entering less than 1 hour.** Please choose the closest task available. If there is a task you would like added reach out to staff person, we can add specific tasks for a garden but make sure first that something like it is not already in the drop-down menu. That is all you need to do. **Remember to enter your totals by November 1st yearly. Any hours dated after November 1st will roll into the new year.** ** The system automatically saves your entry, however, to SEE hours entered, refresh using Microsoft F5 key and using Mac press the "Command Key" and the letter "R" at the same time. You may need to log out and then log back in if the refresh isn't working.
